Introduction

Dt. Abhishek Banerjee, known as @weightlosswidabhishek on Instagram, is a certified nutritionist and weight loss coach who has transformed over 10,000 lives. Founder of @Dietangle, Abhishek aimed to expand his reach and engagement on Instagram. With Spur's Instagram automation tools, he achieved remarkable growth in his followers and engagement.

The Challenge

Before using Spur, Abhishek had 35k followers and wanted to increase his reach and engagement to attract more clients and boost his sales. He needed an efficient way to engage with his audience and convert interactions into meaningful connections and sales.

> “The kind of customisation and support I got from Spur has made my content creation journey super easy. Especially the engagement part is fully automated. Thank you so much Spur Family ”

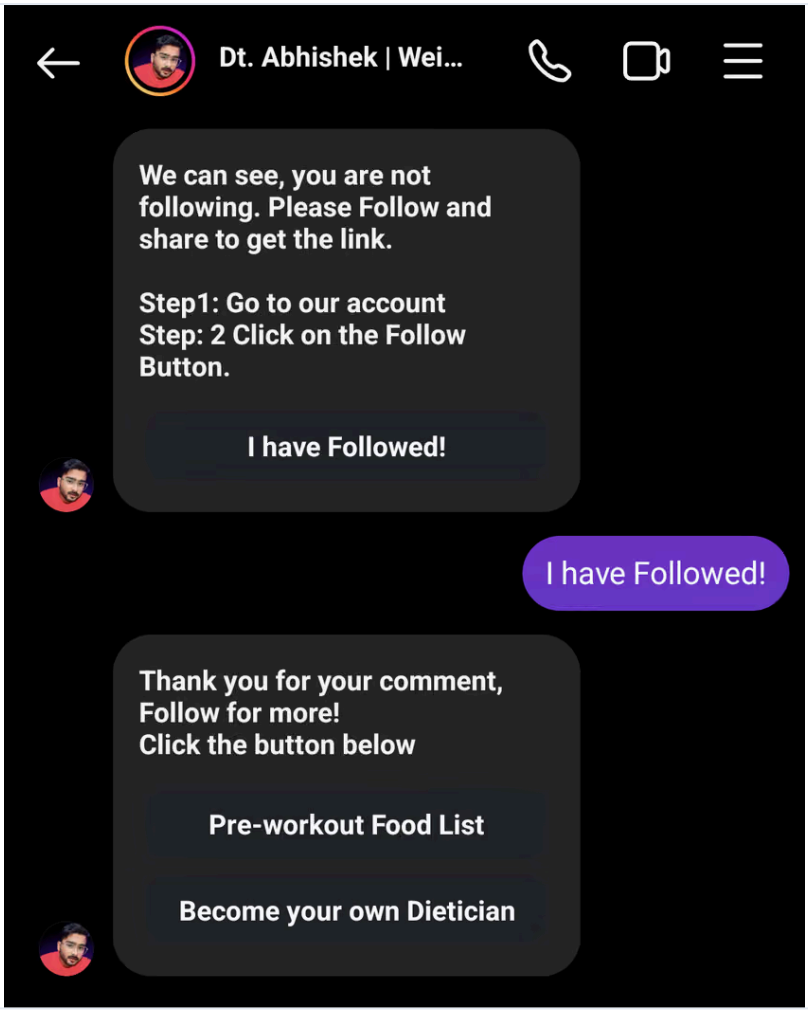
The Solution

Spur provided Dt. Abhishek with Instagram Comment Automation, a feature that automated his engagement process and drove significant growth. Here's how it worked:

Comment Automation - Free Content Delivery:

Abhishek offered a free diet chart to anyone who commented on his posts. Spur automated the response to each comment, sending a direct message with the diet chart link. However, before sending the link, Spur's automation ensured that the users followed Abhishek's account if they weren't already followers.



Automated reply in DM for comments

Engagement Boost:

When people comment on Instagram posts, it signals to Instagram's algorithm that the content is engaging, leading to increased visibility and reach.

It's easier for followers to comment than to click a link in the bio or send a direct message.

Conversion Optimization:

Upon commenting, followers received an automated message with a guide or a product link, enabling Abhishek to collect leads and increase sales seamlessly.
