RESULTS	✓ ₹7,01,275 in reported revenue ✓ 492 orders

HOW THE WORKFLOW WORKS

STEP 1
Browse the WhatsApp catalog

STEP 2
Receive a checkout link

STEP 3
Get order and follow-up updates

WhatsApp Catalog Case Study

Photo Jewels, known for their custom photo projection jewelry, offers a variety of personalized items including rings, pendants, bracelets, and keychains. Based in India, they have delighted over 120,000 customers with their unique products and fast delivery. Despite their popularity, Photo Jewels needed a more efficient way to manage their orders and increase their revenue. They turned to Spur for a solution.

This case study covers how Photo Jewels turned their WhatsApp inquires into sales, using WhatsApp catalog.

The Challenge

Photo Jewels faced the challenge of managing a high volume of orders and queries on WhatsApp, they had many customers reach out on WhatsApp on how to place an order, and since they deal with customized products, how the picture would be uploaded.

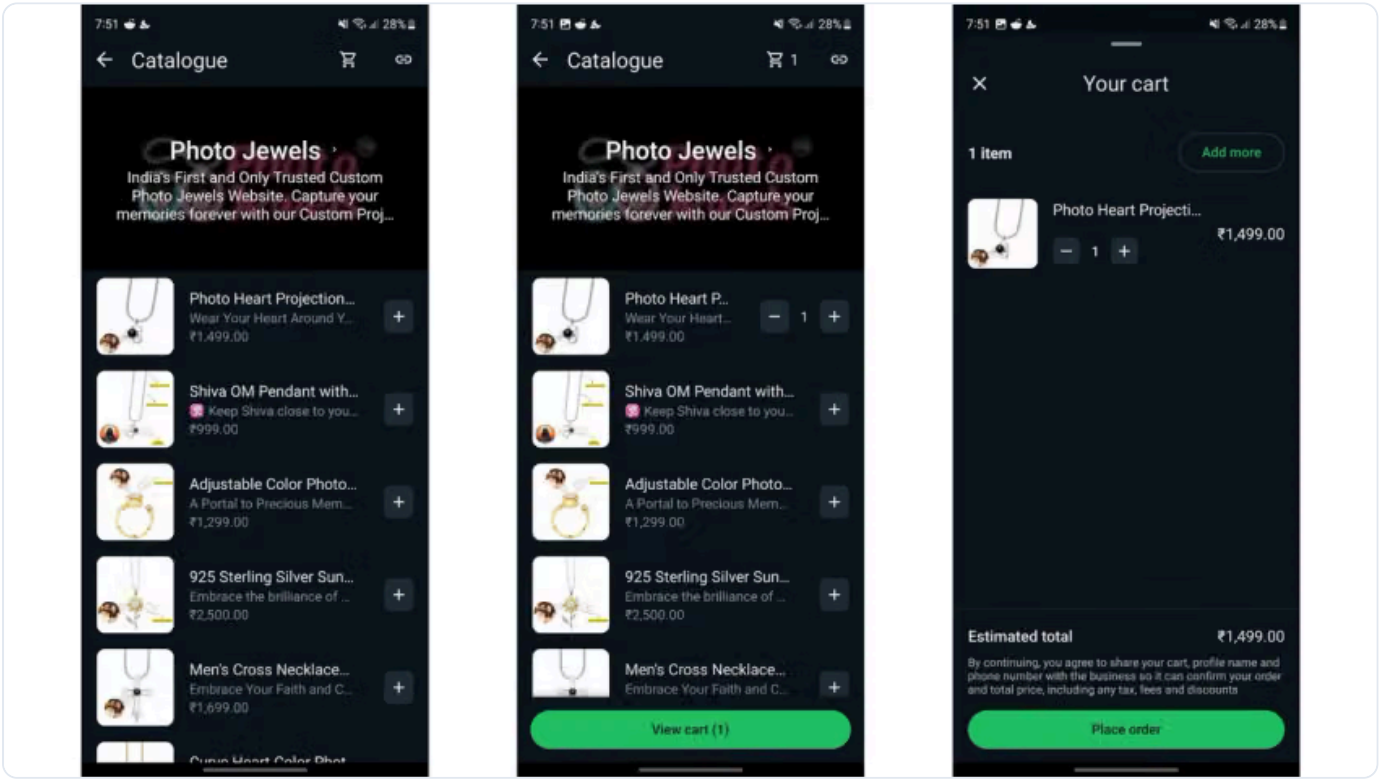
The Solution: WhatsApp Catalog

But what is WhatsApp Catalog?

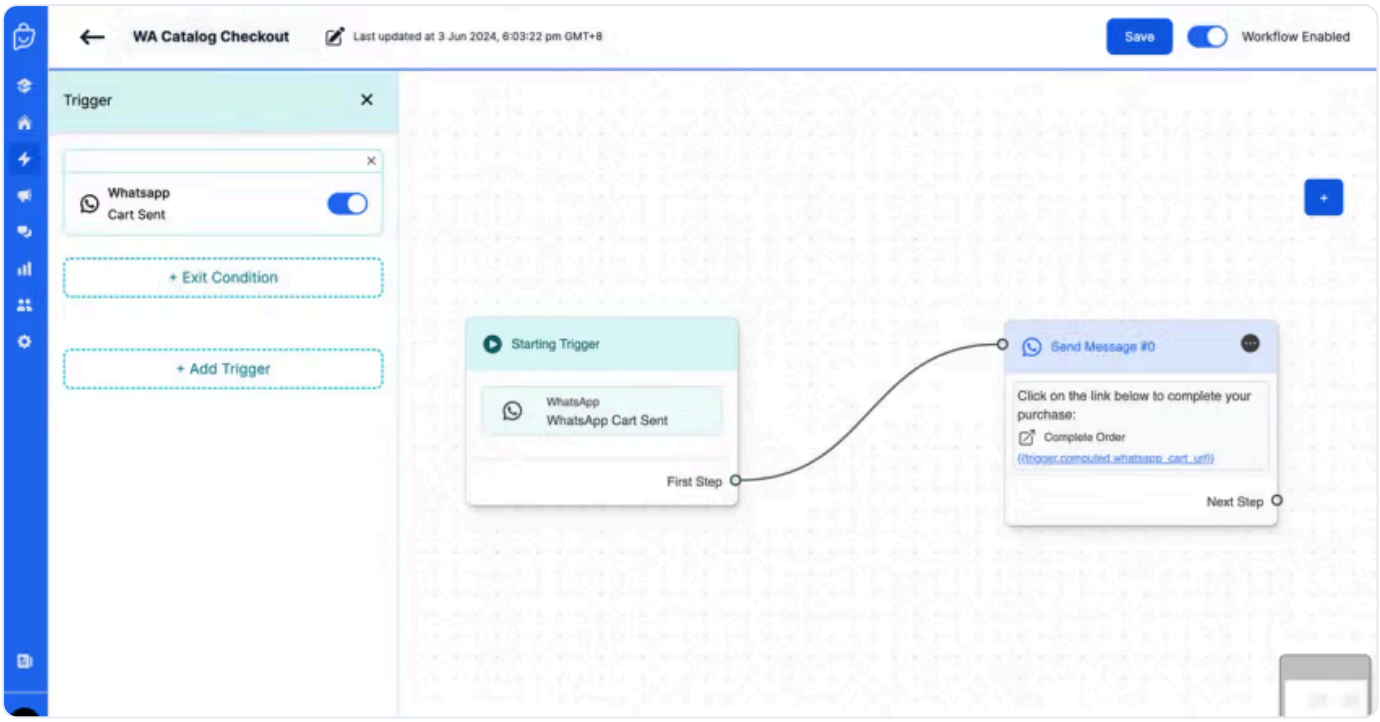
The WhatsApp Catalog API is a digital showcase, a virtual shelf space within the WhatsApp Business platform, enabling businesses to display their wares in an organized and accessible manner. Imagine flipping through a glossy catalog, but on your phone, through an app you already use daily. That's the ease the API brings to eCommerce.

How does it look like?

The catalog is designed for folks to easily discover your products on WhatsApp itself, attached below are a few screenshots.



Their Spur WhatsApp Catalog Setup



As soon as someone sends them a cart, they get a checkout URL

With Spur, they

1. Installed the Shopify App
2. Setup WhatsApp Catalog & Synced it with their Shopify Products using this guide. We also have one for WooCommerce.
3. Activated our pre-built WhatsApp Catalog checkout flow.

And see the sales come in!

SPUR

Carry the conversation through the order.

Pair catalog shopping with confirmation, recovery and post-purchase messages.

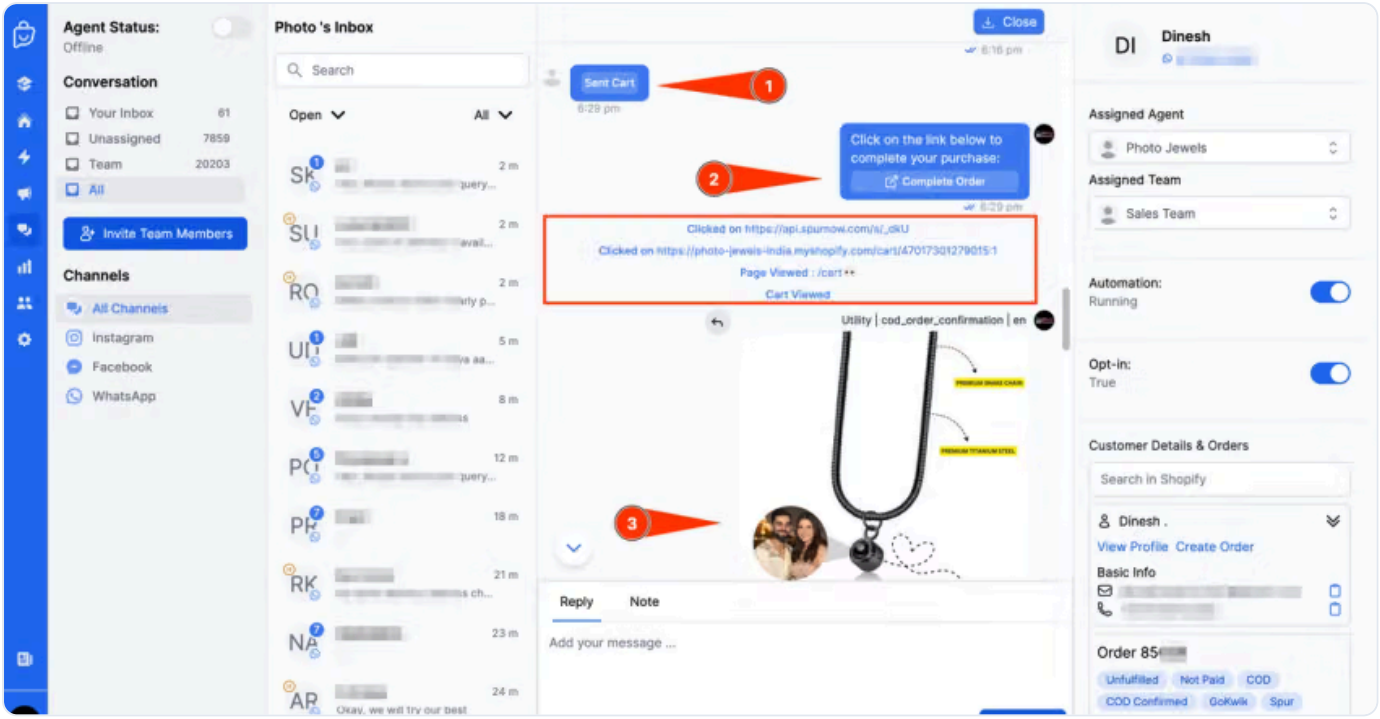
Automated Engagement



The Customer Experience of WhatsApp Catalog

1. A customer sends their cart
2. They immediately get a CTA message with the checkout link.
3. After an order all the post purchase flows start like order confirmation and COD confirmation, which helps in reducing RTO.
4. If you notice the highlighted box, you'll notice many more events like clicks, page view and cart view are tracked, this helps understand the whole customer journey and improve your WhatsApp flows. All these events are automatically tracked by Spur Pixel.

Fast Checkouts

Since the customers already have added products to their WhatsApp cart, they straight away get the checkout link, reducing the steps to the purchase.

Order & COD Confirmation

Photo jewels also use Spur for Order & COD confirmation, so they instantly get the confirmation from the same number they purchased the products from, giving a great customer experience.

Tracking

Not only did they share the exact checkout links, but understood how many customers received their message, and leveraged Spur pixel to track link clicks, product views, page views & much more!

> “Using Spur's WhatsApp Catalog Automation has streamlined our order processing and significantly boosted our revenue. Our customers love the seamless experience, and we are thrilled with the results. Thank you, Spur!”
