## HOW THE WORKFLOW WORKS

**STEP 1**
A viewer comments for the song

**STEP 2**
Invite them to follow

**STEP 3**
Deliver the link in a DM

# Introduction

Watch the video

Samrat Bhatt, known as @psychognify on Instagram, focuses on personal development, sharing insights on books, psychology, and brain hacks. Despite his valuable content, he struggled with limited engagement, having only 50 followers. Seeking a solution to manage increasing comments on his posts, Samrat turned to Spur for help.

# The Challenge

Samrat posted a **reel** discussing how a specific song can reduce anxiety, inviting followers to comment for the song link. This reel quickly gained traction, resulting in about 500 comments. Samrat found it challenging to respond to each comment manually and needed an efficient way to manage and leverage this engagement.

> **“I did 500 DMs manually then eventually spur rescued me ... already 30k+ done!”**

# The Solution

Spur onboarded Samrat in just 5 minutes, connecting his reel with Spur’s Instagram Comment Automation. Here's how the solution worked:

### Automated Engagement

#### Comment Response

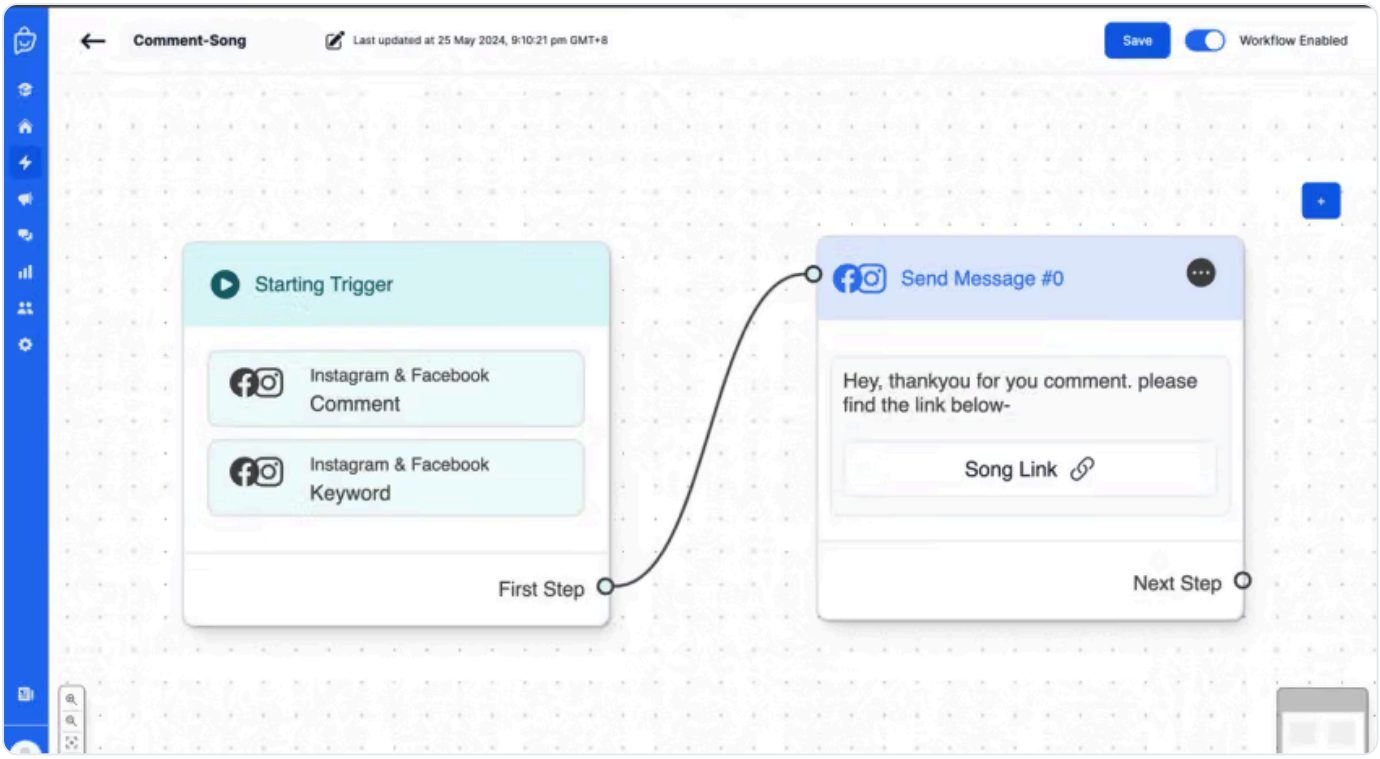

When someone commented on Samrat's reel, Spur's automation responded to the comment and sent a direct message to the commenter.

#### Follow Request

Before sending the song link, the automation checked if the user was following Samrat. If not, it requested them to follow him.

### Link Delivery

Upon following, the automation sent the YouTube link to the song that reduces anxiety.
